Subject: Prescribed Medical Marijuana for Veterans

It has come to my attention that Veterans Affairs Canada has reduced the amount of medical marijuana prescribed to veterans to treat various conditions i.e.. , pain, stress, diet.

Your department has unilaterally reduced the amount of prescribed marijuana from 10 grams per day to 3 grams per day. This has put veterans in a position where they must choose which medical condition they are going to treat on any given day.

I want this decision withdrawn immediately and the 10 grams restored as prescribed. The dosage for each individual should be decided by their personal physician and not by a bureaucrat working for VAC.

Sincerely,
